# HSA regional meeting schedule set

HSA's annual fall regional meetings have been scheduled for September and October 2013. Regional meetings are an excellent forum for HSA members to review the issues and activities of the past year, and discuss the opportunities and challenges that lie ahead.

This year, the day-long regional meeting will be followed by a day-long bargaining preparation workshop. The workshop will be relevant for all members, regardless of which sector they work in.

Online registration for the regional meetings and workshops is available here: <http://events.hsabc.org/>. Log in with your username and password. This link will also allow you to create a username and password if you do not already have one.

The meeting and workshop schedule is attached.
